

PANAGIOTIS PAPADOPOULOS

M.S. Computer Science candidate with experience in Python, SQL, data analysis, software development, and multidisciplinary research.

EXPERIENCE

HCI-VR Lab, University of the Peloponnese — Research Assistant

JUL 2021 - SEP 2024

Designed and implemented components of an interactive VR Tunnel for an EU-funded research project.

Collaborated with multidisciplinary teams on interaction design, system integration, and experimental evaluation.

PANDORA – 5G Electromagnetic Field Observatory, University of the Peloponnese — Research Assistant

MAY 2022 - SEP 2024

Conducted RF-EMF measurement campaigns across multiple locations using specialized measurement equipment.

Collected and analyzed experimental data supporting published research on 5G exposure assessment.

ENIRISSTplus Research Infrastructure, University of the Peloponnese — Research Assistant

MAY 2023 - AUG 2023

Evaluated research services and contributed to methodology validation.

Supported quality assurance, documentation, and research infrastructure assessment.

School Town of Munster, Munster, IN — Permanent Substitute Teacher

FEB 2025 - PRESENT

Manage K–12 classrooms and communicate with students, faculty, and administrators in fast-paced environments.

PROJECTS

Trending Videos Data Analysis — Python, MongoDB, Metabase

Built MongoDB aggregation pipelines to analyze YouTube trending-video data and visualized results using Metabase.

Transaction Analysis — Hadoop, Java, Python, HDFS

Analyzed e-commerce transaction data using Hadoop MapReduce and HDFS and visualized resulting data patterns.

Postgres & Chill — PostgreSQL, Docker, Spring Boot

Developed a data-driven movie recommendation system using user ratings to generate personalized recommendations, with PostgreSQL.

Munster, IN 46321

(219) 466-6720

EDUCATION

Purdue University Northwest, Hammond, IN — M.S. Computer Science

AUG 2025 - EXPECTED MAY 2027

GPA: 4.00/4.00

University of the Peloponnese, Tripoli, Greece — B.S. Informatics & Telecommunications

OCT 2019 - JUL 2024

8.72/10 | Valedictorian, Class of 2024

SKILLS

Programming: Python, Java, C, MATLAB

Data & Databases: SQL, PostgreSQL, MongoDB

Tools: Docker, Apache Hadoop, WEKA, Metabase

Frameworks: Spring Boot

Web: HTML, CSS

HONORS & ACHIEVEMENTS

Valedictorian — University of the Peloponnese, Class of 2024

Merit-Based Academic Scholarship — Sarantopoulos Welfare Institution

Published Author — HCI & VR, and RF-EMF Research

LANGUAGES

Greek: Native

English: C2 Proficiency
